Afternoon Runs:

Should your child(ren) not be able to make their way home from the bus stop without your assistance, we ask that you arrive 10 minutes early each day (depending on your bus stop location) while we endeavour to get every child home as soon as possible.

If not all students catch the bus home on any given day, some stops may not be necessary. This may result in the bus running early in the afternoons. The further your stop is away from the school, the greater the potential for the bus to run early in the afternoon.

With a total scheduled trip time from School to Raymond Terrace of just over 1 hour, this could mean that the bus may run up to 10 minutes early to the last few stops in the afternoons.
